

## **Carl W. White**

### ***Owner / Consultant***

As the owner of Applied Agility ([www.appliedagility.com](http://www.appliedagility.com)), Carl serves as the primary administrative officer, overseeing the internal management of the business. He also contributes thought leadership to the organization's small business practice.

Prior to initiating Applied Agility, Carl was a partner-owner of Yankee Hammer, a remodeling business with clients in the commercial and residential housing industries, as well as commercial business real estate. While deliberately staying small in size, Yankee Hammer developed a solid reputation for creative solutions to tough problems and timely completion of all undertakings. Carl functioned as the partnership's lead designer and project planner, and oversaw the organization's many relations with sub-contractors. His extensive experience successfully addressing the requirements of property owners and contractors encouraged customers to ask him to serve as their general contractor whenever special facilities renovations needs surfaced.

Carl had previously served as a case manager in the mental health industry.

Carl is known in several communities for his creative construction design skills and is often asked to volunteer his services to assist local organizations.
